Pune - India

"I had the pleasure of working with Shashank Bhatnagar on multiple projects during his tenure at Oracle. Shashank is a brilliant technical consultant and I found him extremely professional and a charm to work with. He is very proactive and has a deep sense of ownership. He is a great communicator, full of energy and dedication."

Bhaskar Gopalsamy, Associate Director -AI & A ,Cognizant

"I worked with Shashank during our tenure at LTI. He is a brilliant Data Scientist and Python/Machine Learning expert extremely professional and fun to work with. I appreciate his problem solving and analytics skills and his expertise in AML suites of applications MANTAS. He is very proactive and committed. I found him very professional, helpful and approachable. I recommend him highly for his Technical, Leadership and Customer facing skills

Nishant K Verma Assistant Vice President At MUFG Singapore

"I came to know about Shashank through a friend while I was looking for Python programmer who can solve my problem statement pertaining to Telecom data set. He solved my problem quickly and efficiently. He has deep knowledge in Python and kudos to his problem solving ability. His work ethics impressed me a lot and his kind and helpful nature makes him very approachable. I wish him great Success in the field of Data Science and recommend him for any team because of his great technical and people skills"
